Siliconbrite Technologies Inc. is excited to announce our partnership with German international distributor SE Spezial-Electronic GmbH headquartered in Buckeberg, Germany, with branches throughout Germany, subsidiaries in Poland, the Czech Republic, and the Netherlands.

***“SiliconBrite has some exciting products and a roadmap of ideas for new developments. We are pleased to engage with SiliconBrite so that we can discuss their technology & products with our customers across the European Region” SE Spezial GmbH’s Business Development Director, Steve Attfield “SiliconBrite will enable customers to add features and enhanced safety in their future design and development programs.”***

SE Spezial-Electronic GmbH will distribute SiliconBrite Technologies SBT300x portfolio, including its latest product, SBT3000 Smart and Autonomous Power Line Smart AC Switch Controller, which replaces 23 different ICs in a single IC. SBT3000’s patent-pending advanced active-control technology features a unique architecture that automatically detects AC over and under voltage conditions. It safely isolates the power line from the load until the AC input voltage is within its normal range.

***“We have focused on the attractive European market for quite some time. We believe the SBT300x product portfolio will bring value-added technological advantages in the power protection and the control space while increasing end-product quality within the industrial and consumer applications,” said SiliconBrite’s CEO and Co-founder Barr Karagozlu. “With Spezial-Electronic, we will also be able to increase support for customers in the European countries.”***

## **About SE Spezial-Electronic GmbH:**

SE Spezial-Electronic GmbH was founded in 1970 and is an internationally operating distributor of electronic components. The company is headquartered in Bueckeberg (lower Saxony), with branches in Berlin, Dortmund, and Ellwangen and subsidiaries in Poland, the Czech Republic, and the Netherlands. <https://www.spezial.com/>

## **About Siliconbrite Technologies Inc.**

SiliconBrite Technologies Inc., a member of the Global Semiconductor Alliance, was founded in 2018 as a global fabless analog and mixed-signal semiconductor solutions provider. Delivering innovative, unique solutions while creating value through a focused system approach and expertise in semiconductor design, product development, marketing, applications, and sales. <https://www.siliconbrite.com>
